Letter Of Intent

Dear Mr. Morris,

As #position# of #organization# I would like to express our organization's support for the objectives of the European Organisation of Mountain Bike Instructor-Guides (EO-MTBInG). We, as an organization, see the value of the goals the European Instructor-Guide project is working towards and would like, if possible, to be part of the process in the future. We believe improved professional recognition for guide-instructors, branding for our profession and improved domestic professional opportunities for instructor-guides are important steps for the sector of mountain biking. The European Instructor-Guide project will help quality assurance in guiding and instructing MTB activities across Europe and help increase mobility for guide-instructors. This will lead to higher, more equal professional standards, increased safety and increased participation in the sport on a European level.
